

Holy Cross Greek School

Holy Cross Hellenic School has been in the Bay Area since 1966. It offers a well-rounded academic Greek education to students from pre-school through 6th grade; it is a strong program that complements the curriculum established by the Greek Ministry of Education.

Philosophy

We believe that learning is a lifelong process. Our ancient philosophers said «*Διδάσκω αει διδασκόμενος*» which means "I teach while I am being taught". Education is both intellectually and morally intertwined with self esteem and discipline. Our goal is to focus on each student's abilities to help him/her grow to their full potential!

Holy Cross Greek School
